Automatic transmission fluids - Fully Synthetic

# Eurol ATF 7100

## High-tech Full Synthetic Automatic Transmission Oil

### Description:

Eurol ATF 7100 is a full synthetic automatic transmission oil specially developed for Mercedes Benz NAG2 automatic transmissions.

Eurol ATF 7100 is formulated with high quality synthesized base oils and with the latest additives. This to guarantee a constant high level of its unique properties during use.

Eurol ATF 7100 can be used for fill up or for refilling an automatic transmission, where a performance level of MB 236.14, (and also) MB 236.12 and MB 236.10 is recommended (except with 4Matic systems).

Eurol ATF 7100 has a stable and high viscosity index and a low pour point. The lubricating properties and friction characteristics are carefully adjusted to obtain comfortable shifting and fuel reduction.

Eurol ATF 7100 offers excellent resistance against oxidation, corrosion and foam formation, resulting in a

constant performance during its lifetime.

Eurol ATF 7100 could also be used as a problem solver for automatic transmissions, which have less comfortable shifting properties.

### Specifications

#### Recommended for use

MB 236.14

### Physical properties

Colour	red	
Density at 20°C	0.839 kg/l	ASTM D 1298
Viscosity, kinematic at 40°C	30.1 cSt	ASTM D 445
Viscosity, kinematic at 100°C	6.1 cSt	ASTM D 445
Viscosity Index	156	ASTM D 2270
Flash point	203 °C	ASTM D 93
Pour point	-45 °C	ASTM D 97
